Attendance Policy:

Students are expected to attend all classes in order to be successful in a course. The student may be administratively withdrawn from the course when absences become excessive as defined in the course syllabus.

When an unavoidable reason for class absence arises, such as illness, an official trip authorized by the college or an official activity, the instructor may permit the student to make up work missed. It is the student's responsibility to complete work missed within a reasonable period of time as determined by the instructor. Students are officially enrolled in all courses for which they pay tuition and fees at the time of registration. Should a student, for any reason, delay in reporting to a class after official enrollment, absences will be attributed to the student from the first-class meeting.

Students who enroll in a course but have "Never Attended" by the official census date, as reported by the faculty member, will be administratively dropped by the Office of Admissions and Records. A student who does not meet the attendance requirements of a class as stated in the course syllabus and does not officially withdraw from that course by the official census date of the semester, may be administratively withdrawn from that course and/or receive a grade of "X" or "F" as determined by the instructor. Instructors are responsible for clearly stating their administrative drop policy in the course syllabus, and it is the student's responsibility to be aware of that policy.

It is the student's responsibility to verify administrative drops for excessive absences through Texan Connect. If it is determined that a student is awarded financial aid for a class or classes in which the student never attended or participated, the financial aid award will be adjusted in accordance with the classes in which the student did attend/participate and the student will owe any balance resulting from the adjustment.

See instructor's Course Information Sheet for additions to the attendance policy.

Diversity Statement

In this class, the teacher will establish and support an environment that values and nurtures individual and group difference and encourages engagement and interaction. Understanding and respecting multiple experiences and perspectives will serve to challenge and stimulate all of us to learn about others, about the larger world and about ourselves. By promoting diversity and intellectual exchange, we will not only mirror society as it is, but also model society as it should and can be.

Students with disabilities, including but not limited to physical, psychiatric, or learning disabilities, who wish to request accommodations in this class should notify the Disability Services Office early in the semester so that the appropriate arrangements may be made. In accordance with the requirements of the titles of the Americans with Disabilities Act of 1990, and Section 504 of the Rehabilitation Act of 1973 as amended in 1992, South Plains College will not exclude or discriminate against any individual with a disability from the full attainment and access to post-secondary education, and equal enjoyment of its services and facilities. The College does not discriminate on the basis of disability, and will provide reasonable accommodations in its policies, practices, or procedures when such modifications are necessary to afford its services and facilities to individuals with disabilities, unless the modifications would fundamentally alter the nature of its services. College policy also assures equal opportunity for all qualified persons in admission or participation in, or employment in the activities through which the College operates.

The College maintains that regulations that prohibit exclusion and discrimination on the basis of disability may necessitate different or special treatment of persons with disabilities. Services and benefits should be equally as effective or equivalent to those provided to others. Services and benefits to persons with disabilities must be in the most integrated setting appropriate to the persons' needs in order to be non-discriminatory. More information is available on the College's Disability Services website at <http://www.southplainscollege.edu/health/disabilityservices.php>.

If you believe that an action or decision made by the Disability Services Office violates your rights, you may initiate a grievance procedure. Your first step should be to address the problem with the Coordinator of Disability Services. If you are still not satisfied, you should contact the Director of Health & Wellness. If your concerns are not resolved at this level, the Vice President of Student Affairs can provide direction on further appeals procedures.

Information on student appeals and the academic appeals procedures () are published in the General Catalog at [#Student Conduct](http://catalog.southplainscollege.edu/content.php?catoid=50&navoid=1361) and at [#Disability Services](http://catalog.southplainscollege.edu/content.php?catoid=50&navoid=1367). Should you have questions about assignments, personal matters, and course material, **please use SPC's official email to contact the instructor. Do not use Blackboard Messages.** SPC email is the official means of communication between professors and students. Be sure that you are using your official SPC email when contacting the instructor. Be advised that although I am available via email any time during the semester, I am not always able to respond to emails quickly, especially if you email during non-business hours (after 5pm or on weekends). Email and phone are the preferred methods of contact for this course.

Communication with Students

These will populate beneath the course title in Blackboard and a copy of the announcement will be sent to your SPC email. If you see an announcement in Blackboard, simply click on the title of the announcement link and it will reroute you to the specific announcement contents. It is important that you check these announcements when they are sent out, which means frequent logging into Blackboard and your SPC email account.

Required Materials

- All students have access to the textbook and assignment material related to the textbook for this course.
- Textbook: *The Real World: An Introduction to Sociology*, 8th edition, by Ferris and Stein, Norton Publishing
- Reliable internet access and a computer

Course Plan Information & Delivery

This class will be following a fully face-to-face where you must be physically present in the classroom to receive the course lectures. Starting at the beginning of the semester, we will meet in a classroom (see your schedule). These sessions are imperative for discussing how to be successful in this course, going over what is expected for the rest of the semester, and attending lectures. Attendance is necessary for the successful completion of this course.

Course information (e.g., syllabus, schedule, assignments, papers, projects, media and potential student handouts) is accessed through the Blackboard website. The student is responsible for reviewing all information posted on this site. If the student has questions/concerns about this information, then she/he should contact the instructor (via SPC email). There will be assignments each week which have to be submitted via Blackboard or in person depending on the assignment.

Course Requirements

You are responsible for viewing and reading all lecture material, assigned readings, and assignments. You are expected to read the syllabus and be familiar with its contents. You are responsible for all material covered in this course including exams and keeping up with the course schedule.

It is essential that you have reliable access to the Internet. It is not necessary to buy or own your own computer, but you should have a backup plan in place should you encounter computer problems. Firefox is the recommended and supported browser for Blackboard. It is also the student's responsibility to have the required computer skills to complete this course. Should you encounter technical difficulties contact the instructor first, and/or the SPC technical support call (806) 894-9611, ext. 2180. Be sure to include course and section number information when contacting technical support.

Methods for Assessing the Expected Learning Outcomes

The expected learning outcomes for the course will be assessed through Inquizitive and application assignments, papers/projects, and exams. Grades are based on the quality of the work that has been given, not the existence of a submission. This means that grades are earned based on proof of proficiency in the major concepts.

Exams & Assignments

Reading Assignments

It is expected that you read the assigned chapter readings before coming to class. This will help class discussion and activities. If it is clear to me that students are not completing their reading assignments, I reserve the right to alter the syllabus to add pop quizzes into your final grade. Therefore, it is in your best interest to read and be ready to apply your knowledge in class and in the assignments. Assigned readings are listed in the schedule under the Course Schedule link in Blackboard.

Application Assignments

Throughout the course you will be required to work on various application assignments. These assignments typically will be media-based and include questions for students to answer. Assignments must be done independently, must be typed and saved as a Word document, and due according to the schedule. Proper spelling and grammar are necessary for college course writing. If spelling and grammar are not written academically (i.e., in text message format, etc.) point deductions will be incurred. Google docs (cloud word documents) or .pages documents, hand-written and scanned, emailed, or late assignments will NOT be allowed. Students will submit these assignments in Blackboard.

Inquizitive Assignments

Inquizitive Assignments will be given throughout the course. The **Inquizitive assignments will consist of chapter-focused quizzes due at 10:00 PM on the date listed on the schedule.** The quizzes are typically unlimited in the number of questions and attempts. Once you have reached 100% score, you have completed the assignment. It is not necessary to complete the "shared writing or journal exercises" in the Inquizitive program. Please do not wait until the last minute to complete work. Late assignments will NOT be allowed.

Exams

There will be 4 non-cumulative exams during the semester. The exams will cover any material presented in lectures, the textbook, as well as assigned readings or media. Exams may include a multiple-choice format, true/false, and/or a short answer/essay format. All exams will be completed on the due date on the schedule, and you may use your notes and textbooks. The final exam will not be given at any time other than the scheduled final exam day. Make-up exams for the first 3 exams will be given only in extreme situations, may be of a different format than the original tests, and will only be given if you notify the instructor prior to exam day that you will not be able to complete the exam within the 24-hour time period. If permitted to take a make-up exam, you will take it at a mutually agreed upon time, as soon after the original exam as possible. Make-up exams will not be given if I have not been notified prior to the exam day about your absence. Please plan your travel arrangements accordingly.

General Expectations/Policies for Students

I would like to welcome all students into an environment that creates a sense of community, pride, courtesy, and utmost respect; we are all here to work cooperatively and to learn together. I consider it an honor that you have chosen to be in my course and want to thank you in advance for the time and hard work that you will put into this learning experience.

One of the keys to being successful in college is to communicate with your instructor. Feel free to email if I can help you be successful in this course. I wish you luck this semester and hope that the grade that you achieve in this course will reflect the effort you put into it. Please make every attempt to keep up with all assignments. This includes keeping up with the fast pace of this course and complete all assignments, exams and papers/projects on time.

If you miss a class meeting for any reason, YOU are responsible for all material covered, for announcements made in your absence, and for acquiring any materials that may have been distributed in class. I do NOT give out my notes so you will need to get those from another student.

Class lectures are face to face. During lectures, please silence all background noise like music, laptops, and cell phones. Please consult the instructor if there is a situation where your cell phone must be available. If background noise and distracting behavior occurs during lecture, the student will be asked to leave. Repeated offenses thereafter will result in a course drop. It is imperative that class time strictly be used for learning.

Late Work

Late work is not allowed! Late assignments constitute those which have been initially submitted incorrectly, in a format other than Microsoft Word, or are submitted at any time after the deadline on the date it is scheduled. After contacting the instructor, upon approval, a new due date will be given for either the original assignment or an alternative assignment of equal value. If the student fails to meet the revised due date, then a zero (0) for the assignment will be given.

Attendance

Attendance in this course is the active submission of coursework before the scheduled due date and time (on-time). Each non-submission of assignments, papers, or exams counts as an absence. If you need to miss any portion of the course assignments (although not advised) please let the instructor know in advance, within 3 days of missing. If you miss "class" and have an SPC approved excuse (i.e., you are representing SPC at an official school function or celebrating a religious holy day) or a notice of absence from the Office of the Dean of Students, it is your responsibility to provide the **written excuse** from the school. In the case of an excused absence, you are still responsible for all missed readings, work, materials, and assignments.

Extra Credit Activities

There are additional points given for the Course Agreement, Syllabus Quiz, and Course Evaluation and added to your grade upon completion (See Grading section for breakdown of points). Very rarely will additional extra credit be given. Please note that if extra credit is given, the points may not be significant enough to bump your grade up a letter but will be enough to supplement an assignment's low grade. Do not depend on extra credit to completely "fix" your overall grade.

Class Withdrawal

It is the full responsibility of the student to personally withdraw from the course if needed. A student who has already missed or has had difficulty completing modules, assignments, papers/projects, exams, and/or anticipates difficulty in completing the course to his/her satisfaction is encouraged to give withdrawal all the consideration it is due. Students should discuss progress and grades with the instructor prior to making a withdrawal decision.

Administrative Drop Policy

Per SPC's attendance policies, the instructor reserves the right to drop a student for excessive absences. Absences in this context refer to any missing required coursework. Due to Financial Aid and South Plains College requirements for participation/attendance, a student who fails to turn in 5 assignments during the semester may be dropped with a grade of "X" from the course.

Open Computer Lab

There is an Open Computer Lab located on the Levelland campus in the Technology Center. It is available to all students, with priority given to those students enrolled in computer classes. Computers are also available on the Reese Center, Lubbock, and Plainview campuses. Check with libraries and labs for hours.

Logging into Blackboard

To access your course, go to <https://southplainscollege.blackboard.com/> or go to the SPC Homepage and click on the "Login to" link in the top right-hand portion of the page and then click on the Blackboard link on the pull-down or you can type or copy the address into the address window of your computer. I recommend that you bookmark Blackboard on your computer for quick and efficient access. You can also log into MySPC and there is a Blackboard link there. Once you reach the site you will click "Log In". The log-in screen will come up asking for your username and password. Simply follow the instructions on the screen.

Computer Requirements

Most Web educational experience will require the use of several additional browser plug-ins. It is very highly recommended that you have an anti-virus program on your computer. You may also need Adobe Acrobat for readings and a multimedia player such as Windows Media Player. Firefox is the supported browser for Blackboard. SPC students are offered Office 365 which includes Microsoft Word, PowerPoint, Excel, and storage on OneDrive. Please download and use it! Since coursework and material is entirely online, participants are expected to have at least an elementary knowledge of their microcomputer operating system and basic knowledge of software and tools such as a word processor, e-mail, an Internet browser, and search engines.

Technical Problems/Support

If you are having computer problems, let the instructor know as soon as possible. I will try to help in any way I can. Please remember that it is **the student's responsibility to have a backup plan for technical issues**. Have a plan in place now and do not wait until a problem or crisis happens.

- Most tech issues are related to failure to update java, using the incorrect internet browser (try use Google Chrome or Firefox instead of Internet Explorer or Safari), and/or not deleting browsing history files daily. Most issues are related to computer issues, not Blackboard. Make sure that your computer has an up-to-date antivirus software program installed. Please note this instructor does NOT recommend use of any handheld devices like a cell phone or a tablet for taking this course.

Academic Integrity

In addition to the policy in the Common Course Syllabus, students found guilty of cheating or plagiarism will earn a zero on the work in question for the first offense and will be documented with South Plains College. Should a second offense occur, the student will be dropped from the course with an 'F'. Any amount of dishonesty is

subject to these consequences, whether a lot or a little; this can include but is not limited to: one copied sentence of a written assignment, a missing citation, an entire paper copied from someone/somewhere else, one plagiarized post on a discussion board, one copied exam item, looking at the scantron of another student during an exam or an exam or other coursework completed by someone other than yourself. You have also committed academic dishonesty when sharing course content/items/answers. This includes sharing course content with classmates or future students as well as sharing course content on websites such as Quizlet, Course Hero, or similar “study applications.” For further information and examples please see the Catalog, Student Guide, or refer to www.plagiarism.org

Civility in the Classroom

To create and preserve a classroom atmosphere that optimizes teaching and learning, each student shares a responsibility in creating a civil and non-disruptive forum. The student is expected to conduct herself/himself at all times in this classroom in a manner that does not disrupt teaching or learning. In order to assure that all students have an opportunity to gain from time spent in class, each student is prohibited from using cellular phones/beepers/pagers/MP3s/Ipods, making offensive remarks, reading newspapers/non-class materials, sleeping, excessive/loud talking, talking during exams, using tobacco products or engaging in any other form of distraction in the classroom. The student who engages in such behaviors during course assignments (e.g., exams, papers, group projects) will not be permitted to complete or make-up the assignment and will be given a grade of zero (0) for the assignment. In addition, the instructor has the right to limit classroom discussion to meet the educational objectives of the class session. The instructor is authorized to take such steps as are necessary if the behavior of the student disrupts the normal classroom procedure. The instructor may remove the student for the single class session in which disruptive behavior becomes continuous and/or serious and may begin disciplinary proceedings. (Refer to the *South Plains College Student Conduct Guide*, available on the South Plains College website.) If the student engages in repeated deviations from expected classroom behavior, then he/she may be dropped from the course. Violations of the *Student Conduct Guide* may result in serious sanctions, up to and including expulsion.

Sensitive Nature of Humanities and Behavioral Science Courses

Given the dynamics of individual, relational, familial, societal, and cultural development and issues, behavioral studies courses address many sensitive issues; this course is no exception. Lifespan and relational issues occur in the context of sexual, racial/ethnic, political, religious/spiritual, economic/social class, and disability/challenge concerns. The discussion of such issues will increase the student’s knowledge of developmental conditions in the modern world, but the information can be emotionally charged. It is also likely that the student will be exposed to diverse viewpoints; some viewpoints might differ from the student’s personal views. If a student chooses to remain in class, then they will be expected to respect the diverse viewpoints represented in course material, as well as the viewpoints of their classmates. If the student is easily offended by discussion of such issues, then should consider whether to remain enrolled in the course.

Revelation of Personal Information

This course addresses topics that are personal in nature. Students are encouraged to participate in class discussion/presentations but are not required to share personal information with classmates. It is recommended that students use discretion in self-disclosure with classmates and the instructor. While it is expected that fellow classmates will be respectful and not disclose information that is shared in class, the instructor cannot guarantee confidentiality of information. Thus, students are responsible for the information that they share and should not share information they do not want others to know.

Syllabus

The instructor reserves the right to amend the syllabus if necessary. Students will be notified of any changes in advance.
