

Professor Kristin Bingham
Assistant Professor of Biology
Department of Biology
South Plains College
Box 86
Levelland, TX 79336

BIOL 1413.151 General Zoology (Online)

Course Description: In this course, we will study fundamental biological concepts relevant to animals, including systematics, evolution, structure and function, cellular and molecular metabolism, reproduction, development, diversity, phylogeny, and ecology. Laboratory activities will reinforce these same concepts to ensure comprehension. (ACGM 2018)

Instructor: Kristin Bingham, Assistant Professor of Biology

Contact me:

- Office:** Science 197
- Office Hours:**
 - Monday 8:30 am – 9:30 am (F2F/Phone/Virtual)
 - Wednesday 8:30 am – 9:30 am (F2F/Phone/Virtual)
 - Thursday 6:00 pm – 9:00 pm (Virtual)
 - Friday 9:00 am – 12:00 pm (Virtual)
 - To meet with me during virtual office hours, send me an email or schedule your time at: <https://calendly.com/profbingham/meetme>
 - I am available by appointment outside of these hours – please don't hesitate to email me if you would like to schedule a meeting outside of these times.
- E-mail:** kbingham@southplainscollege.edu
- Office Phone:** (806) 716-2308 – leave a message.
 - Professor may be unavailable from noon on Friday until 7:00 am on Monday as well as on college holidays.

Required Course Materials:

Purchase Options

Students, we're committed to providing you with high-value course solutions backed by great service and a team that cares about your success. See tabs below to explore options and pricing. Don't forget, we accept financial aid and scholarship funds in the form of credit or debit cards.

PRINT/EBOOK	DIGITAL	BUNDLES

Text: Zoology, 11th ed with Connect Access, Miller and Tupper. (ISBN13: 9781259880025)

You **MUST** have the Connect access. The link below will take you to the publisher website where you can compare prices and view requirements: <https://www.mheducation.com/highered/product/zoology-miller-tupper/M9781259880025.html#interactiveCollapse>

The image to the left shows the publisher option that you need – the **digital option** for the textbook with **Connect access for \$86.00**.

At the **SPC Bookstore (Levelland)** you can purchase or rent the textbook with the code:

Purchase cost: \$178.60

Rental cost: \$150.75

NOTE: **There are no used copies that have the access code!**

Lab Atlas: Van de Graaff & Crawley's "A Photographic Atlas for the Zoology Laboratory", 8th ed. (ISBN-13: 9781617317675)

The image to the left is the cover of the current edition of this manual.

At the **SPC Bookstore (Levelland)** you can purchase or rent the manual:

Purchase cost: New \$58.10/ Used \$43.60

Rental cost: New \$37.80/Used \$29.10

Or you may look for other vendors online. **You NEED this in addition to the text with the access code!**

Lab Kit:

I have created lab kits for your use this semester and will share additional details about pickup and shipping options during the first week of classes.

**Additional
Required
Materials:**

You will need reliable access to the internet, as well as a computer with a functioning webcam and microphone. **NOTE:** Mobile devices (i.e. phones) may not be used for taking exams.

Core Curriculum Objectives and Student Learning Outcomes are found on the BIOL 1413 Common Course Syllabus.

Course Delivery:

This section will be delivered entirely online, in an asynchronous format. This means that you work on your own to meet weekly due dates. There are no live lectures to attend.

POLICIES, PROCEDURES, AND RULES

This course will be conducted according to the policies and procedures of the South Plains College Student Handbook and General Catalog.

Online Course Content:

- **Blackboard is the primary source for course information.** We will use additional programs such as Connect (McGraw-Hill), FlipGrid, EdPuzzle, etc. for activities throughout the semester but all assignments will be listed on Blackboard and linked from Blackboard.
- **Students need to access Blackboard regularly. Google Chrome is the preferred browser for use with Blackboard and will be REQUIRED when taking exams.**
- Specific course materials available include PowerPoint lecture slides, lecture videos, reading assignments, messages and announcements from the instructor, study aids, quizzes, exams, lab exercises, etc.

Communication Policy:

- For individual communication, **I prefer to use email.** Please email me at kbingham@southplainscollege.edu with your questions or concerns throughout the semester. Your emails should include:
 - Subject line: Firstname Lastname – BIOL 1413.151
 - A greeting – I prefer either Professor Bingham, Mrs. Bingham, or Mrs. B.
 - In the text of the message, please let me know how I can help you.
 - I check my messages throughout the day Monday – Friday and I generally respond to emails within 24 hours or less except for on weekends and holidays.
- For group communication, I will use **announcements on Blackboard.**
- Please **do not** send me messages through Course Messages – I do not use this tool.

Attendance Policy:

- As this is an asynchronous online class, I will not be taking regular attendance as I would in a conventional course. You will work on your own schedule to complete the assignments by the date they are due. Regular and consistent interaction with online lessons, labs, and textbook materials is necessary for satisfactory achievement. There are no extensions for assignments without extenuating circumstances (i.e. life-threatening illness, death, etc. – see my **Make-up Policy** below in the document).
- Course material is arranged in Exam Units on Blackboard (Exam 1, Exam 2, Exam 3, Exam 4)
 - Each Exam Unit is divided into Weekly folders. The folders have the dates of that week listed (for example, Week 1 – 1/19/21 to 1/22/21) so you can keep up with where we are working.
- You will work on your own schedule to complete the assignments by the date they are due. Each week you will find an assignment checklist posted – print this/save it and use it as a **checklist** to be sure you have done all assigned work for that week.
- Attendance will be measured by a student’s ability to consistently log on to Blackboard and COMPLETE the assigned work. Failure to turn in assignments will be recorded as an “absence.” The instructor will monitor student statistics throughout the duration of the course and will contact you if your personal statistics deviate from what is “normal” for the rest of the class.
- The student may be administratively withdrawn from the course when they have failed to turn in a total of four (4) graded assignments, quizzes, and/or exams (at any time; for any reason) AND the minimum course objectives cannot be met.
- If I notice that you are not progressing, I will reach out to you by course message, email, and telephone to try and determine what is happening, so that we can resolve it before it becomes too big of an issue.
- Students who enroll in a course but have “Never Attended” by the official census date, as reported by the faculty member, will be administratively dropped by the Office of Admissions and Records. A student who does not meet the attendance requirements of a class as stated in the course syllabus and does not officially withdraw from that course by the official census date of the semester, may be administratively withdrawn from that course and receive a grade of “X.”

Know this – I am incredibly dedicated to your success in this course. I want to hear from you and visit with you about the course and anything else you’d like to discuss. I will make every effort to accommodate you, but you must communicate with me. I can’t help you if I don’t know there is something that isn’t working for you. And please – turn on your video when we talk so I’m not talking to names on a screen!

Course Grade Policy:

- The grade for this course will be based on:
 - Four Exams (worth 100 pts. possible each)
 - Quiz Average (worth 100 points)
 - Assignments Average (50 points)
 - Lab Submissions Average (50 points)
 - Endangered Species Presentation (worth 50 points)
- There are 650 total points possible for the semester. The grading scale will be as follows:

Letter Grade	Course Average*	Semester Points
A	90 - 100 %	585 to 650
B	80 - 89.9 %	520 to 584
C	68 - 79.9 %	442 to 519
D	60 - 67.9 %	390 to 441
F	0 - 59.9 %	0-389

***Course Average:** Calculated by adding the eight grades indicated, then dividing by 650 (the total points available in the course). This gives the student's final average grade in the course. If a student's final average is *less than* one-half of one percentage point away from the next higher letter grade, the instructor will refer to total points earned during that semester to determine final grade. There are NO curves in this course.

Exam Policy:

- Each major exam will cover material from lectures and labs during the unit.
- Material from lectures will include multiple-choice questions, short answer questions, matching, and true or false questions, as well as diagrams to complete. Lab material on exams will include questions asking you to identify structures, label diagrams, name the organism, and resolve classifications.
- Your score is recorded as the number of (points earned/total points possible)*100. This number is the number of points you will have earned for this exam.
- The last ("final") exam will be given during final exam week. The final exam for this course **IS NOT** comprehensive.

Mandatory proctoring of major exams - Exams in this course will require online proctoring. Therefore, students will be required to have a webcam (USB or internal) with a microphone when taking an exam or quiz. Students understand that this remote recording device is purchased and controlled by the student and that recordings from any private residence must be done with the permission of any person residing in the residence. To avoid any concerns in this regard, students should select private spaces for the testing. Various academic sites on each SPC campus offer secure private settings for recordings and students with concerns may discuss location of an appropriate space for the recordings with their instructor. Students must ensure that any recordings do not invade any third-party privacy rights and accept all responsibility and liability for violations of any third-party privacy concerns. Setup information will be provided prior to taking the proctored exam. **See exam testing procedures below.**

- **Exam testing procedures:** The following table lists conduct requirements for online exams, as well as conduct violations. In general, behave as if you are taking the exam in a classroom with a live proctor.

Exam conduct requirement	Consequence for violation of exam conduct
Microphone turned on and recording.	A 30% penalty will be given for an exam taken without the microphone being turned on and recording throughout the entire exam.
Sufficient lighting of the testing area.	A 30% penalty will be given for an exam taken without enough lighting for the instructor to assess the testing environment.
Student remains in webcam view during exam.	A student who leaves the webcam view during an exam for any reason will receive a zero for that exam. Take all bathroom breaks, etc. before beginning the exam.
No unauthorized materials near desk area.	A student who has any unauthorized materials (books, notes, blank paper, phone, earbuds/headphones, another computer, etc.) near the testing area will receive a zero for that exam.
No talking with others during the exam or playing of music or other audio recordings.	A student who has any music or audio recordings playing during exams, or who talks with any ADULT for any reason during the exam, will receive a zero for that exam.
The exam is taken in an approved proctored environment.	Any exam taken without either the webcam software or in an approved testing center will receive a zero for that exam.

- I will provide a practice activity prior to giving you the first online exam so that I can educate students about proper testing behavior. This suspending of consequences is done as service to students to prevent unintentional or honest mistakes during subsequent exams. Consequences will be suspended *only* on that specific activity as it is meant to be a practice for you to familiarize yourself with the secure exam proctor. **I will provide feedback on any violations.**
- **Any student who thinks that a penalty was misapplied can request that the penalty be reviewed according to the Grievance Procedure listed below in the document.**
- If you experience technical difficulties, please contact me immediately. You can also reach out to Blackboard for help if the issue is with the platform. When taking exams, Proctorio's chat function is a life saver – talk to them FIRST! Should issues arise that are out of your control (i.e. Blackboard shuts down indefinitely), I will adjust assignment availability and due dates as appropriate.

Quiz Policy:

- Quizzes will be given frequently throughout the semester, including (but not limited to) lecture quizzes, reading quizzes, video quizzes, lab quizzes, and others as necessary. Quizzes will be listed on your Assignment Checklist each week in Blackboard. You will have ONE ATTEMPT to take a quiz. If you experience any technology interruption or issue while taking your quiz, you should screen shot what you see and message me immediately. If I receive your message before the due date, I will reset your quiz attempt. This is a good reason to take your quiz early!
- Spelling counts on quizzes (and all work you submit to me). Taxonomy lists are provided with your course materials. There is no reason for misspelled words in a college course. Use your lists, use good grammar, and use proper English, or you'll lose credit.
- Your quizzes will be combined and averaged and are worth 100 points toward the course grade.
- **Quizzes CANNOT be made up if missed for any reason.** Missed quizzes receive a grade of zero. Plan ahead – check your Calendar – Note your due dates!

Other Assignments Policy:

- Assignments include Connect homework exercises, FlipGrid discussions, Lab submissions, and EdPuzzle videos.
- All assignments will be posted with clear instructions.
- **Lab Submissions:**
 - You will be required to submit lab reports at times through this semester. These may be in the form of completed worksheets, scanned documents/PDFs, and photos.
 - You will upload the required item(s) in Blackboard in your Weekly folder.
 - Each lab submission will be graded for completeness, accuracy of information, how well you followed directions, and proper use of the English language.
 - Your Lab Submissions will be combined and averaged and will be worth 50 points toward your overall grade this semester. I will determine the number of point you earn using the formula: Lab Grade = Lab Avg/2.

Endangered Species Project:

- You will research and create a presentation over an endangered species. You will learn more about this project as we move further into the semester.
- The total project will be worth 50 points. You will be graded based on the overall presentation, accuracy and thoroughness of information, and how well you work with your group mates.

Make-up Policy

- If you miss an assignment, quiz, fail to upload your lab submission, or miss an exam, you will receive a zero for that assignment. You will not be able to make up or retake the missed item. **NOTE:** If you have an extenuating circumstance (i.e. you're in the hospital, are very ill, etc.) that prevents you from taking an exam or submitting your work on time, please contact me as soon as possible to discuss this. Should you be allowed to submit late work, each late submission will receive an automatic penalty of **-10 points**. Late work will only be accepted by the end of the exam unit in which it was assigned. If you have questions, I encourage you to discuss this with me.

Drop Procedure:

- An official drop initiated by the student before the Last Day to Drop (**April 29, 2021**) will result in a W on your transcript. Any drop initiated by the instructor for excessive absences will result in either an X or F grade on the transcript. See the school policy on drops and the limit placed on “unexcused” drops which is available in the General Catalog on the school website. Students can drop a course online by completing the [Student Initiated Drop](#) form.

Student Conduct:

- Student Code of Conduct Policy: Any successful learning experience requires mutual respect on the part of the student and the instructor. Neither instructor nor student should be subject to others’ behavior that is rude, disruptive, intimidating, aggressive, or demeaning. Student conduct that disrupts the learning process or is deemed disrespectful or threatening shall not be tolerated and may lead to disciplinary action and/or removal from class.
 - A high standard of conduct is expected of all students. It is assumed that obedience to the law, respect for property, authority, personal honor, integrity, and common sense will guide the actions of each member of this class. Any student who fails to perform to the expected standards will be asked to withdraw from the course or will be administratively dropped from the course by the instructor.
 - Students should respect the academic situation and be considerate of others in the virtual classroom. Late arrivals should enter on and without disruption to the discussion. Students should refrain from talking, eating, or any other behaviors that will disturb others, including the instructor. Students should be alert and participating during discussions.
- **Online Course Behavior Expectations:**
 - Remember – You are addressing a professor and/or a group, even though you don’t see them.
 - Don’t say things that you wouldn’t say publicly in a traditional class setting.
 - Don’t address comments to individuals unless you want all to know what you are telling that person.
 - Don’t share confidential information.
 - Read any messages or comments before sending; once it is out there, you can’t change it.
 - Access your course messages frequently and read through an entire message before you reply.
 - Because electronic communication does not show smiles and frowns (other than the graphic kind), or employ intonation, humor and sarcasm might be misunderstood. Use these carefully and employ good word choice so that your meaning comes through clearly.
 - Avoid sending unkind messages. Besides angering others and reflecting poorly on you, they may have the effect of shutting down discussion.
 - Aim for clarity and readability in your text. Paragraph often, avoid using only capital letters, and stay away from character symbols and conventions that get in the way of visual comfort.
 - Although electronic communication can be very informal, try for good language usage so that your message comes through rather than your mistakes (use your spelling and grammar checkers). Avoid correcting another person’s language, however. Try to be clear, indicating what you are talking about fully instead of presuming that others know which message you are responding to, what chapter or assignment you are referring to, etc.
 - Use of inappropriate or disrespectful language, cyber bullying, etc. will result in a zero for that assignment and will require that the student attend a meeting with the instructor and/or any other appropriate faculty to address this issue.

Academic Integrity (from SPC General Catalog)

It is the aim of the faculty of South Plains College to foster a spirit of complete honesty and a high standard of integrity. The attempt of any student to present as his or her own any work which he or she has not honestly performed is regarded by the faculty and administration as a most serious offense and renders the offender liable to serious consequences, possibly suspension.

Plagiarism and Cheating: Students are expected to do their own work on all projects, quizzes, assignments, examinations, and papers. Failure to comply with this policy will result in an F for the assignment and can result in an F for the course if circumstances warrant.

- Plagiarism violations include, but are not limited to, the following:
 1. Turning in a paper that has been purchased, borrowed, or downloaded from another student, an online term paper site, or a mail order term paper mill;
 2. Cutting and pasting together information from books, articles, other papers, or online sites without providing proper documentation;
 3. Using direct quotations (three or more words) from a source without showing them to be direct quotations and citing them; or
 4. Missing in-text citations.

- Cheating violations include, but are not limited to, the following:
 1. Obtaining an examination by stealing or collusion;
 2. Discovering the content of an examination before it is given;
 3. Using an unauthorized source of information (notes, textbook, text messaging, internet, apps, any secondary device) during an examination, quiz, or homework assignment;
 4. Entering an office or building to obtain unfair advantage;
 5. Taking an examination for another;
 6. Altering grade records;
 7. Copying another's work during an examination or on a homework assignment;
 8. Taking pictures of a test, test answers, or someone else's paper.

Grievance procedure:

- If a student is having a problem with the course policies or the instructor, he or she should *first* try and resolve any such problems with the instructor. If the problem is not resolved, the student may proceed to the Biology Department Chair, who can advise the student on how to resolve the problem, or direct them to the appropriate office.

Copyright Notice:

- All material presented by the instructor in the course is copyright protected. The material presented by the instructor may not be modified or altered in any way. You have permission to print out one copy of any material presented by the instructor in this course (ex. course information sheet, contact information, and learning module checklists). The one copy must only be used for your personal educational use during this semester. The material may not be altered or modified in any way. The material may not be distributed in any way. You have permission to download the same material to your computer hard drive or other medium in order to print out the material needed. Any material downloaded may not be altered or modified in any way. The downloaded material may not be distributed in any way. If any course material is found on other websites, this becomes an act of academic misconduct and will be dealt with appropriately following the guidelines of the college concerning academic integrity.

Lab Safety:

- Each student will be informed/trained on the “Chemical Hygiene Plan (CHP) for Laboratories at South Plains College” documentation and training during the first week of the semester. Each student will be required to acknowledge receipt of this information and be required to follow all procedures outlined by the instructor and/or staff of South Plains College. This includes online sciences with at home labs. Students not complying with any regulation may be dropped from the course.

COVID-19 Statement:

- It is the policy of South Plains College for the Spring 2021 semester that as a condition of on-campus enrollment, all students are required to engage in safe behaviors to avoid the spread of COVID-19 in the SPC community. Such behaviors specifically include the requirement that all students properly wear CDC-compliant face coverings while in SPC buildings including in classrooms, labs, hallways, and restrooms. Failure to comply with this policy may result in dismissal from the current class session. If the student refuses to leave the classroom or lab after being dismissed, the student may be referred to the Dean of Students on the Levelland campus or the Dean/Director of external centers for Student Code of Conduct Violation. Students who believe they have been exposed or may be COVID-19 positive, must contact Health Services, DeEtte Edens, BSN, RN at (806) 716-2376 or dedens@southplainscollege.edu.

Diversity Statement:

- In this class, the teacher will establish and support an environment that values and nurtures individual and group differences and encourages engagement and interaction. Understanding and respecting multiple experiences and perspectives will serve to challenge and stimulate all of us to learn about others, about the larger world and about ourselves. By promoting diversity and intellectual exchange, we will not only mirror society as it is, but also model society as it should and can be.

Disabilities Statement:

- Students with disabilities, including but not limited to physical, psychiatric, or learning disabilities, who wish to request accommodations in this class should notify the Disability Services Office early in the semester so that the appropriate arrangements may be made. In accordance with federal law, a student requesting accommodations must provide acceptable documentation of his/her disability to the Disability Services Office. For more information, call or visit the Disability Services Office at Levelland (Student Health & Wellness Office) 806-716-2577, Reese Center (Building 8) 806-716-4675, or Plainview Center (Main Office) 806-716-4302 or 806-296-9611.

Non-Discrimination Statement:

- South Plains College does not discriminate on the basis of race, color, national origin, sex, disability or age in its programs and activities. The following person has been designated to handle inquiries regarding the non-discrimination policies: Vice President for Student Affairs, South Plains College, 1401 College Avenue, Box 5, Levelland, TX 79336. Phone number 806-716-2360.

Title IX Pregnancy Accommodations Statement:

- If you are pregnant, or have given birth within six months, Under Title IX you have a right to reasonable accommodations to help continue your education. To activate accommodations you must submit a Title IX pregnancy accommodations request, along with specific medical documentation, to the Director of Health and Wellness. Once approved, notification will be sent to the student and instructors. It is the student's responsibility to work with the instructor to arrange accommodations. Contact the Director of Health and Wellness at 806-716-2362 or [email cgilster@southplainscollege.edu](mailto:cgilster@southplainscollege.edu) for assistance.
